WEEKLY REPORT

PERIOD ENDING 29 August 1983

I. Items or Events of Major Interest that have Occured during the  
Preceding Week:

25X1

25X1

d. Inspection of Satellite Systems: [redacted] was tasked  
with inspection of a satellite communication system (SC-3) located in lot  
storage [redacted] The cases opened were found to have moisture damage on the  
system's racks and its accessories. Since there are six more systems stored  
at [redacted] a TDY trip has been planned for the week of 29 August through  
2 September. Inspections will be made with representatives from [redacted]  
[redacted] and other Agency personnel. Repacking will be required after inspections  
have been made. [redacted]

e. Support to NE: At the request of NE Logs, a system much like a  
portable EKG unit was prepared for shipment [redacted] This  
item is extremely fragile and required special foam packaging. [redacted]  
[redacted]

25X1

25X1

25X1

25X1

f. Blood Pressure Clinic: A blood pressure clinic has been established  
for Depot personnel. Depot employees can have their blood pressure checked  
either between 0800-0900 hours or 1500-1600 hours Monday through Thursday. [redacted]

25X1 SUBJECT: [ ] Weekly Report - 29 August 1983

g. Excess Property:

25X1 1. On Thursday, 25 August, Safe Masters Truck Company picked up twenty 4-drawer Remington Rand safes for Bob Sauve of Amtrak. This will again be a transfer to Amtrak via GSA. [ ]

25X1 2. The [ ] facility still is holding twelve 1981 documents consisting of 51 line items, total dollar value \$497,872 pending action by the GSA Sales Center. [ ]

25X1 3. On Friday, 26 August, two CD employees accompanied one trailer load of 2-drawer and 4-drawer safes to the Property Disposal Office, Fort Belvoir for disposal. This consisted of 8 documents, 22 line items and a total dollar value of \$13,388. [ ]

25X1 h. Repaving Project: The repaving program is in full operation again after GSA received notification that additional funds have been approved to continue the program. Removal of sludge and backfillings with a one-foot layer of gravel--in some instances with six foot layers of landfill--are underway. Hopefully, pouring of concrete can begin within two weeks. [ ]
